

Copy / email client file from WebConnect

1. Goal

The goal is to create a local copy of a client file, or copy a file to attach to an email.

2. WebConnect

1. Open WebConnect Adviser or Manager program
2. Click Computer
3. Click Browse
4. Click required file to highlight
5. Hold Ctrl, click C to copy
6. Go to your emails / local location to save
7. Hold Ctrl, click V to paste

Enjoy!
