

Show Map with Paddock Names & Area

1. Goal

This guide assumes that mapping polygons have already been imported into Adviser, and are assigned to required paddocks.

2. Paddock Boundaries

1. Open Adviser program
2. Sync / Open client file as required
3. Click Mapping tab
4. Click Show Boundaries icon 
5. Click drop down to the right of Show Boundaries
6. Click Show Paddock Names

Your maps with Paddock Names and Areas will be displayed.

Good luck, and have fun!

Back Paddock Team.
